Some of the people we've entertained

Paul Martin

Paul's career in hospitality training began 30 years ago as a bartender and then bar owner. After selling up in 1994 he went on to become a pioneer of the modern day cocktail & mixology consultant, establishing himself as one of the very first cocktail advisors to the UK spirits industry.

A period of working as a drinks industry consultant and trainer followed, during which time he set two mixology world records, won 7 global mixology titles and published 4 top-selling cocktail books. Running alongside his hospitality training activities Paul also began a parallel career in the field of communication skills, running courses and workshops in verbal and non-verbal communication techniques.

His absolute passion for human communication also led to him qualifying to level 3 in British Sign Language, a subject that he has also gone on to teach. The combination of hospitality training expertise and communication skill training evolved in to Paul delivering workshops and master-classes on the delivery of world-class service skills both inside and outside the hospitality industry.

90-120 mins Fully Interactive Cocktail & Mixology Themed Team Building & Entertainment Event led by multiple world mixology champion, Paul Martin

LIVE – The Mixxa Interactive Cocktail Experience

These frenetic, energised and comedy driven, fully interactive entertainment & team building shows involve guests competing in teams, using their newly acquired cocktail mixing skills to win both team and individual prizes.

Each team is furnished with a full set of professional cocktail mixing equipment, a range of cocktail glasses, a selection of spirits, liqueurs and juices and of course the guidance of Paul Martin.

Events are tailored to the client's needs and are made up from a selection of interactive cocktail challenges.

Interactive Challenges – Choose the warm-up event

Cocktail Waiters Race – Teams are taught how to effectively balance a cocktail on a tray and move at pace without spilling a drop! The teams then have to compete in a race to negotiate a course without ruining the cocktail!

Or

Champagne Cocktail Relay – Paul demonstrates how to mix the perfect Champagne Cocktail. The teams then have to make one for each member of their group before the other teams. Quite a challenge when they have to share the ingredients!

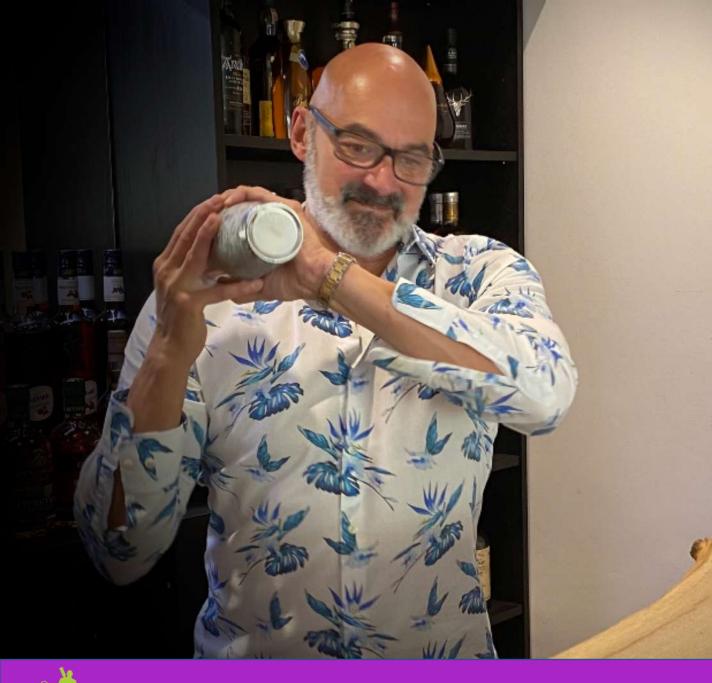

Interactive Challenges - The TWO Main Events

Layer-by-Layer – Having been taught the magical skills of layering ingredients, the teams have to work together to create a cocktail with as many layers as possible in one glass in a set time limit.

And

Mimic the Master – Paul demonstrates how to mix three classic cocktails to a world-class standard. The teams are then required to work together to recreate the same three cocktails to an equally high standard! Just wait for the judging!!

Interactive Challenges - The Crescendo

Having acquired a variety of mixology skills to this point, the teams are tasked with creating their own unique cocktail, using any of the ingredients to hand, that must represent a set criteria (this is usually their company's brand or mission statement). A time limit is set after which, team members must present their cocktail to the room. Judging is based on taste, aesthetics and the entertainment level of their presentation! Watch out for a last minute twist too ©
